AGE GROUP
3 Months to 3 Years
WE ARE NOT JUST A NURSERY, WE ARE
A TREASURY OF LOVE & PASSION
WHERE WE BEGIN TO MAKE THE GENIUS
OF THE CHILD
Sayfol Nursery School

As with all divisions of the Sayfol Education Group, our Nursery School is dedicated to providing the young learners of today with positive educational and social development programs.

Our Nursery School is divided into two age groups.

1. **Our Baby Unit (3 months to 1 year)** is designed to meet the needs of young growing babies. During this phase of life your young baby will be cared for by qualified staff who are constantly encouraging development in all areas: Gross motor skills, Fine motor Skills and Social interactions. Our Nursery School is fully equipped to encourage the journey as your child progresses from crawler to walker!

   Our ‘Sensory Skills’ room is designed for babies aged 3 months to crawling (Approx. 8 months). This room is equipped with toys and materials to aid the sensory development of your child.

   Our ‘Adventure Area’ is for crawlers to walkers. This area is designed to continually challenge your child to develop their emerging skills.

2. **Our Action Station (1 year to 3 years)**

   Our ‘Action Station’, is located on the ground floor with rooms and activities that are designed specifically for young toddlers, 1 year to 3 years old. These areas are dedicated to movement, motor skills, early learning and developing social talents.

   We also have an outdoor music area where learning is encouraged through action and sound! Our art and craft area is also in a covered outdoor area. The sounds, colours, nature and atmosphere of our art area encourages all of your budding artists.

   Indoors we have specially selected toys and learning activities which encourage a continuation of the developmental milestones, along with beginning early education. Emphasis is placed upon fine motor skills, alphabet, number, colour and shape recognition. Learning with friends and our qualified enthusiastic staff pave a positive path for your young child and will install a passion for learning which will carry them into their school years.
